PROFILE

Full Stack Web Developer with hands-on experience in Laravel, React.js, and MySQL through academic projects. Strong foundation in web development, object-oriented programming, and database systems. Passionate about building scalable and user-friendly web applications.

PROJECTS

Quiz Management System (Laravel, MySQL, XAMPP)

- Developed a full-stack web-based Quiz Management System using **Laravel framework** and **MySQL database**
- Implemented two-panel architecture (**Admin & User**) with role-based access
- Admin panel allows creation, update, and management of quizzes and questions
- User panel enables quiz participation, skill assessment, and result visualization
- authentication system (Sign Up / Sign In)**
- Applied **MVC architecture** for clean, scalable, and maintainable code

React-Based Frontend Application

- Built reusable and modular UI components using React.js
- Implemented state management and props for dynamic data handling
- Designed responsive user interfaces using modern CSS techniques

AI-Based Examination Monitoring System

- Developed an AI-assisted monitoring system to detect mobile phone usage in examination halls
- Implemented camera-based device detection with automated image capture
- Applied computer vision concepts from Artificial Intelligence coursework
